

Healthy people, healthy planet.

Newsletter - Sept 2012

Welcome to LiveWell for LIFE project newsletter!

Online consultation on the LiveWell for LIFE plate in France, Spain and Sweden is now open

All LiveWell for LIFE stakeholders are invited to input and to share their views on the case studies presented in the report during the [workshop](#) that will take place on 18 September as well as during the [online consultation process](#), which is launched in parallel. These inputs will be explored and discussed in the formal LiveWell for LIFE Plate Evaluation Report.

First stakeholder workshop to discuss the LiveWell plate in France, Spain and Sweden

WWF and Friends of Europe are running their first LiveWell for LIFE stakeholder workshop to introduce the LiveWell case studies developed for France, Spain and Sweden (the project's pilot countries) and the detailed research report

on which they are based. The event will be held in Brussels on 18 September 2012.

It is possible to have a balance of healthy and sustainable food choices - demonstrates the LiveWell for life report

The aim of the LiveWell for LIFE report: "A balance of healthy and sustainable food choices" is to develop a LiveWell diet for each country that decreases greenhouse gas emissions by 25% from the current average, costs no more, meets national nutritional guidelines, and still resembles current diets.

Scoping the "healthy people, healthy planet" message

It is essential to ensure that the health sector is involved in the project; that's why LiveWell for LIFE is currently tendering a contract for a brand new study that will help connect the energies and agendas of health and environment stakeholders to promote the win-win message "Healthy People, health planet" across Europe.

About LiveWell for LIFE

LiveWell for LIFE - or LiveWell for low impact food in Europe - is a pioneering project that introduces the concept of a healthy and sustainable diet; a diet which can bring significant health benefits to EU citizens and contribute towards the reduction of greenhouse gas emissions from the EU food supply chain.

Project Partners

The project is managed by [WWF](#) and [Friends of Europe](#)
