

Healthy people, healthy planet.

## Season's Greetings from the LiveWell for LIFE team!

The holiday season is the perfect time to express our heartfelt appreciation to the stakeholders and partners who have been so instrumental in the development and success of the project.

While another year is coming to its end, with all the joy and excitement that is part of the tradition, we'd like to share our Season's Greetings with all the stakeholders, friends, supporters and partners of the LiveWell for LIFE project.

We would like to thank you for your cooperation and support; your active involvement and contributions during 2012 helped us on the journey to demonstrate what sustainable and healthy diets could look like for different European countries.

### An update on the consultation process

We appreciate the feedback that many of you have sent on the research and summary reports, as well as for being a part of [our online community](#). We will be sharing the final reports with you in February but in the meantime we have produced FAQs and a project scoping document which will be available in January, as an initial response to your comments and questions.

We wish you Happy Holidays and a fruitful and successful New Year!

*The LiveWell for LIFE team*

P.S. We suggest that you keep an eye on [the stakeholders' network](#) and follow [@LiveWellFood on Twitter](#) for updates on our next workshop, the details of which will be announced in January.
