of Europe de l'Europe

Healthy people, healthy planet.

Setting the scene for our workshop 5 March 2013

The following slides provide an overview of social and economic barriers and opportunities pre-selected for discussion at the upcoming workshop. These are based on stakeholder consultation and a literature review conducted by the LiveWell team.

We will use the workshop on 5 March to critically analyse these barriers and opportunities. Through our discussion we aim to reach a consensus on the top 10 priority issues for adopting sustainable diets across the EU. Our discussion will also frame the development of policy recommendations and practical pathways in the next phase of the project.

To enhance your participation at the workshop, please review the issues in the context of the questions below.

If you feel we have overlooked parts of the story, please get in touch with
